Renewing Your MIMS Subscription

This process must be done from a computer connected to the SA Health computer network.

If you receive a message within your MIMS app to renew your subscription, go to the SALUS webpage at www.salus.sa.gov.au

In the menu on the left side of the screen you should see the item Apps for mobiles. Click on this or select MIMS for Mobiles from the dropdown.

Click on the MIMS image. You will be taken to a new page.

If you receive a 403 error, try again from a computer that is connected to the SA Health computer network.

Click on the icon that matches the device that you use your MIMS app on.

(If you use the MIMS app on a Samsung phone or tablet click on MIMS for Android.)

You will be taken to a new screen.
Both iMIMS and MIMS for Android screens are very similar.

Enter your email address that you registered your MIMS account with.

Click Proceed.

You will be taken to a form like this.

Fill in the requested details.

Click the Complete Registration button when done.
You’ll be redirected to a new screen (as below).

There are no further actions that you need to take to renew your subscription. If you haven’t already, make a note of your unique token.

Open up your MIMS app to test that it has worked. If prompted by your app enter your unique token.

If you have any issues with this process or have any questions, contact the library and we’ll help you out.
